Re: Recommendation for Marcus Trawick IV

To whom it may concern,

I am not only honored to provide a recommendation on behalf of Marcus Trawick IV, but I am also excited. My name is Sharon Woods, Owner, and Director of KIP Academy Inc.

I met Marcus as a fourth grader, when his parents enrolled him at my Academy. I am not surprised by his academic and personal success to date. I would like to believe I played a small role in his development. Marcus was placed in the classroom with middle school students because of his maturity, good behavior, manners and of course, his academic ability. He was the youngest but was a leader and example to the other students.

His parents have consistently set an example and made clear their expectations regarding him as a young man of honor and respectability. Marcus is always courteous, kind, and willing to help others. I have watched as he has grown into the young man many have known he would be.

So, I recommend young Mr. Trawick with enthusiasm and assurance of his success and that of any institution of higher learning or employer he chooses. Should there be a need to contact me, please feel free to do so.

Sincerely,

Sharon Woods
