To Whom It May Concern,

It is with immense pleasure that I present this letter of recommendation to you on behalf of Brandon Thomas as your next scholarship recipient. I have known Brandon for the past 4 years as an accomplished student who is always looking for ways to learn and apply new information. His inquisitive nature fits very well into his career goal as a mechanical engineer and has prepared him to move into a position that allows him to continuously grow in his field of study.

Brandon has always loved to build and create new things. During his time in high school, Brandon participated in the robotics club and has taken several engineering and computer coding classes. He has always had a passion and love for cars and want to create the next car of the future.

Brandon is also extremely dedicated to helping improve his community. He completed more than 75 hours of volunteer work. While in JROTC, Brandon participated in the yearly Memorial Day parade and collected money for the empty stocking fund. He, also, participated in parades to support and raise money for breast cancer, made snack bags for homeless families, and wrote post cards with words of encouragement to homeless families and soldiers during the holidays. Through his volunteer work experience, Brandon has learned to appreciate the gifts he has been given and is now dedicating his time to making sure that others feel loved and appreciated.

Brandon spreads his love for his school and community through the school activities in which he participates. He is a member of the National Honor Society, Beta Club (7 years), the 100 Black Men of Atlanta Project Success Program, Student Government Association, Boy Scouts, Breakthrough Atlanta, The Atlanta Youth Climate Council, and the Homecoming Court. He has participated in the Dual Enrollment Program for the past two (2) years and has continued to maintain his Grade Point Average (GPA) for the Principal's List and the Honor Roll.

Brandon's dedication and work ethic makes him a great candidate for your scholarship. I whole-heartedly recommend him and know that he will utilize the funding to further his education and bring an increasing amount of notoriety to your organization.

Warm regards,

Kathy Griffin, Ed. S.

Mathematics and Physics Department Chairperson
Teacher, 100 Black Men of Atlanta Project Success
