RE: Letter of Recommendation for Addae Benson

Addae Benson is a student in my Peer Leadership class at North Atlanta High School.

During the time I have known this student, Addae has consistently displayed characteristics of a charismatic and respectful individual in his pursuit of academic success. He has succeeded on both formal and informal assessments and is recognized as one of the most creative model students at our school.

Addae has been a valuable member of our school environment throughout his tenure at our school. He is a member of multiple leadership groups at the school to include being an integral part of the AVTF and Theatre Departments. He has been recognized for his performance and production with various awards and recognitions. Addae also has maintained high honor roll throughout his academic career. Addae Benson is an extremely talented individual that I have had the immense pleasure to teach and mentor at North Atlanta High School. It is of my strong opinion that Addae possesses the characteristics and values of communication, reflection, work ethic, and compassion that will allow him to be extraordinarily successful in pursuit of all his future academic and career goals. I recommend him for any and all opportunities.
