To Whom it May Concern:

It is with great pleasure that I can write this letter of recommendation for Anthony Tucker. I am a personal family friend and throughout this letter I will refer to Anthony as A.J. because I've always known him as A.J. I have had the privilege of watching A.J. grow from infancy to the dynamic young man he is today. If I had a son, I would want him to be like A.J.

Throughout his elementary school, middle school and high school years, A.J. has always been an exemplary student. He excelled as a top student at every level. When he matriculated to high school A.J. soared academically. He is in the Westlake High School magnet program, which is a rigorous S.T.E.M academic program. Many high school students show the minimum effort to get by. A.J. on the other hand not only showed maximum effort in his studies but also a strong positive attitude towards what he was trying to achieve in school. In addition, to his rigorous academic program, for the past two years A.J. worked five hours a day, three days a week at his local Wendy's fast-food restaurant while keeping a 4.0 GPA.

These words are not just great adjectives to describe this young man. He has been recognized by Jere W. Morehead, President of the University of Georgia, and Georgia Governor Brian Kemp with the University of Georgia Merit Award for his academic success. This is merely one example of the many accomplishments A.J. has achieved and the many accolades he has received because of his strong work ethic and his strong belief in his own ability to achieve whatever he sets his mind to do.

A.J. embodies the characteristics of a young man one would describe as Black Excellence at its highest. If your scholarship committee is looking for a student candidate with a record of consistent achievement both inside and outside of the classroom, it is my prayer that Anthony (A.J.) Tucker be the recipient of your scholarship.

Sincerely,

Angela Furcron
